

## Risk Assessment for the September Full Re-opening

### Introduction

The government plan is for the full return of all pupils from September 2020: <https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools>

School employers and leaders are required by law to think about the risks the staff and pupils face and do everything reasonably practicable to minimise them, recognising they cannot completely eliminate the risk of coronavirus (COVID-19). School employers must therefore make sure that a risk assessment has been undertaken to identify the measures needed to reduce the risks from coronavirus (COVID-19) so far as is reasonably practicable and make the school compliant with guidance. General information on how to make a workplace compliant, including how to approach a coronavirus (COVID-19) risk assessment, is provided by the [HSE guidance on working safely](#).

This risk assessment checklist/tool is based on Government guidelines on COVID-19 as at 2<sup>nd</sup> July 2020 and is provided to help schools to prepare and decide arrangements for an increased number of children attending/returning to school. It remains subject to change at a short notice as updates are received from the Department for Education (DfE). [EYFS guidance](#) should be considered for Nursery Schools and Nursery Classes.

Risk assessment is about identifying sensible measures to control the risks in a workplace or when undertaking an activity. The process evaluates the threats and risks of a specified issue/situation and enables the likelihood that somebody could be harmed, together with an indication of how serious the harm could be, to be considered.

The Risk Assessment below details specific measures but as an overarching summary:-

### Core Principles

- Stay at home if you are ill
- Self hygiene
- Academy cleaning regime
- Test and trace engagement
- Reduce contact in school
- Maximise distance in school where possible
  - Bubbles – year group or class
  - Avoid contact between bubbles
  - Forward facing desks
  - Staff and pupil distance where possible
- Minimise contamination.

## Systems of Controls

### 1. Prevent

You must:-

- a. Stay at home if unwell
- b. Clean your hands
- c. Catch it, bin it, kill it
- d. Enhance cleaning regimes
- e. Minimise contact

You should try to

- f. Social distance where possible

The 2 mandatory cases for wearing PPE remain – when dealing with a symptomatic member of staff or student or where you normally do in intimate care situations.

### 2. Respond to Infection

- a. Engagement with test and trace (and engagement with [absent@e-act.org.uk](mailto:absent@e-act.org.uk) in all cases)
- b. Management of confirmed cases
- c. Contain local cases alongside PHE
